New Deadline: 13 Jun 2022; 11.59AM (before 12 Noon)
Deliverables list (including project brief template) & submission form will be updated after this meeting

FAQ: Product Capstone

- Will the capstone Deadline Extended?

- We lost our [MD/CC/ML] cohort, so will there be replacement?

- We haven't even achieved 50%, can we continue?

- We can't contact our mentor, how?

- Will we have presentation or only videos needed?

- How will Bangkit score individual scoring from group?

- What about the incubation process?

Selection Rubric

1st round - Cohorts peer-review (choosing 50 from 400+ Teams)			
Theme Relevance and Ideas	Implementation Correctness	Market Opportunity	Presentation Clarity

| 2nd round - with Judge in the panel Finalist (choosing 15 from 50 Teams)						
Theme Relevance and Ideas	Techniques done right	Future Prospects	Local Deployment Opportunities	Go-to Market Sustainability	Industry Relevance	Presentation

Initial (Cohort Peer) Scoring

- Team will present @ 10 mins.
  - Schedule decided by Bangkit between 14-16 Jun 2022 [9-11, 13-15, 15.30-17.30]

- **No Reschedule Policy**
- Only team with **all complete (active) team member attending** will be considered for top-50 teams and full scoring
- Incomplete teams will still be able to present, with:
    - The whole team receiving 5% reduced score
    - Not-attending cohort receiving 15% reduced score
    - No chance for top-50 for the whole team

Exception:
Sick (bedridden/ with doctor's letter), Academic Test or Thesis Defence (not thesis consultation), Indispensable Emergency (such as traffic incident or direct family member pass away)

Company-based Capstone Timeline

18 April — Connecting with Companies

25 April — Project Plan Deadline

Hello Good People,My name is Kurnia Mayestic Gulo👋

Praise God, I am very grateful this semester the opportunity to participate in the Bangkit 2022 program.🥰

As we know the Bangkit program is part of an independent study program and Bangkit is a unique career readiness program led by Google and providing support from industry experts from GoTo, Traveloka, and the Deeptech Foundation. Through the Bangkit 2022 Program I had the opportunity to study in a Machine Learning class. This activity has taken place from February 2022 to June 2022.

Through this program, I learned many things. I can learn from the basics of Machine Learning using the dicoding and Coursera learning media courses and be guided by reliable mentors and instructors from Indonesia and abroad. Each class that is successfully completed we will get a certificate, where this certificate can be used as a guide for applying for jobs.

In addition to learning about Machine Learning class material, I also learned about how to prepare for the world of work, time management and many other classes that have been provided.

In every activity, we are required to use English in communicating. This is done by participants, mentors, instructors and even program managers.

Then you can get 1 Jacket!!

Team Meeting Summary

✅ **Take a note all the important date**
   - completing the mandatory courses
   - capstone project

✅ We'll invite the **Top 50** to a separate meeting regarding **the incubation offer**

✅ We'll send information regarding **the capstone project soon.**
   Please check your email frequently

✅ When in doubt, ask:
   - capstone@bangkit.academy (capstone)
   - 2022@bangkit.academy (overall program)

Have you been this far east -
Kafemenanu, Kab. Timor Tengah Utara, NTT
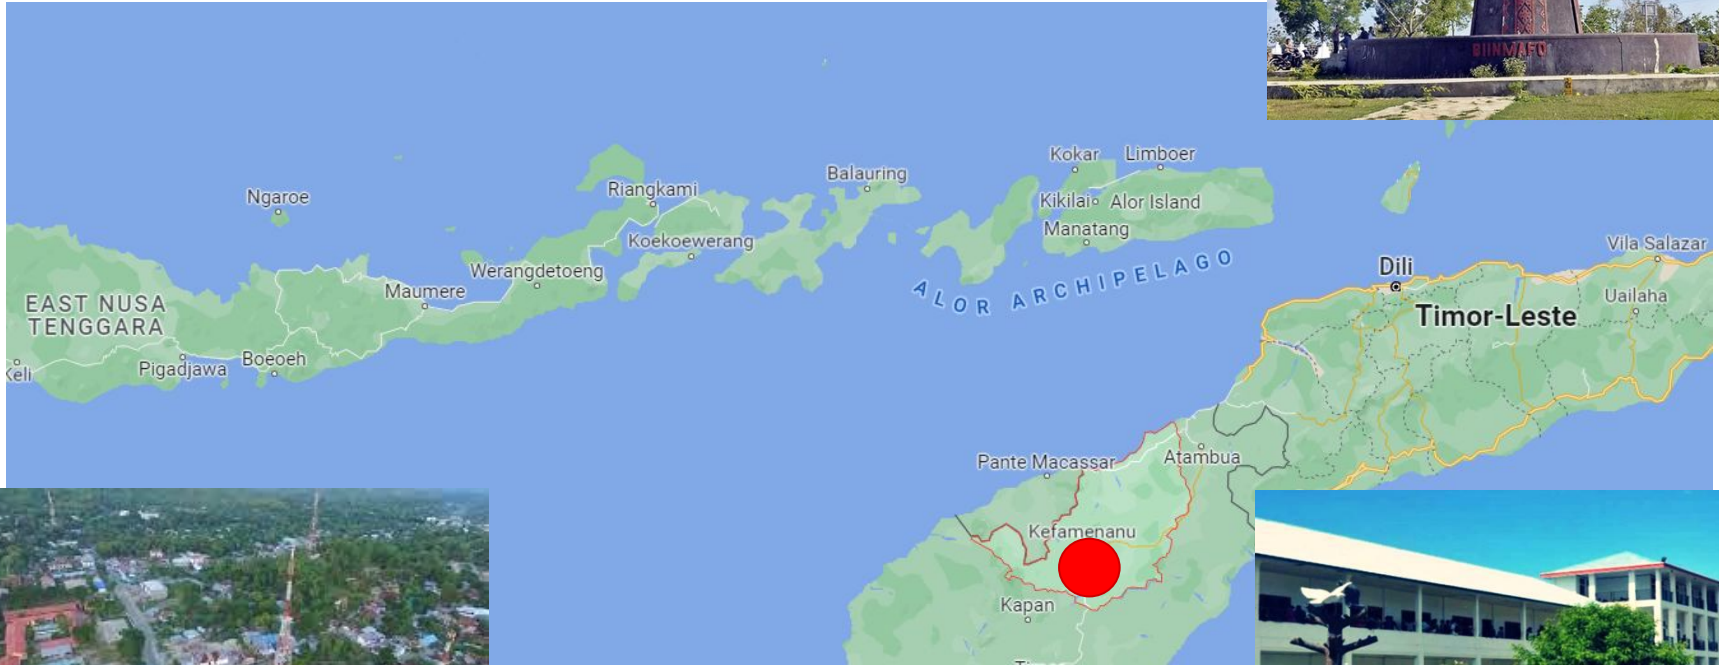

Teaching tech for my community in North Central Timor is my dream.

Adrianus Ragil Indrajaya Korbafo

Bangkit 2022 Cohort - Cloud Computing
Information Technology - Universitas Timor

Bangkit Story

"**I love teaching** because one of my lecturers said that teaching increases our knowledge.

In addition, I also want to build **a tech community for youths in North Central Timor one day.**

This is because I realize that limited resources in my hometown make it difficult for them to access knowledge about technology."

Adrianus Ragil Indrajaya Korfabo
CC, Univ. Timor

Bangkit Story

When you feel too tired..
always remember **WHY** you started

*"Saya ikut Bangkit agar dapat **sertifikat Google** untuk bekal S2"*

(alm Eril, ML student, ITB)

*Alhamdulillah saya terpilih Cloud Computing . Saya ingin belajar banyak hal untuk **masa depan saya.***

(Muhammad Mufti Al Ghifari, CC student, UNY)

Belajar Android, saya ingin berkontribusi untuk kemajuan kota kelahiran saya, Kendari.

(Ahmad Fathanah M. Adil, Android, Unhas)
